POTASH PRODUCTION IN CROATIA -- Politika, No 13061, 22 Oct 45

The potash factory in Sisak has met its plan for the year 74 days ahead of schedule. This year it has produced twice as much as last year and lowered costs 10 percent.

OIL PLANT IN CROATIA -- Vjesnik, No 1079, 21 Oct 48

The ethereal oil-processing plant on Cree Island has been rebuilt and has resumed operations. It extracts ethereal oils from local medicinal plants.

Since the new list of prices to be paid to producers was published, popular interest in gathering these plants has greatly increased. The District People's Committee is giving each producer both cash and certain quantities of corn meal, flour, beans, sugar, and fats in exchange for plants.
